GRADUATE SCHOOL, YSU, INDONESIA

in collaboration with

DAAD, GERMANY,

TECHNISCHE UNIVERSITÄT DRESDEN, GERMANY, and

LEIPZIG UNIVERSITY, GERMANY

BACKGROUND

The activity of the doctoral and alumni network "Education and Technology" is focused on systematic training for junior researchers and alumni in the TVET / SME domain to support their professional career in order to become experts. Through this systematic training, all participants will improve their analytical and advisory capacity and use it effectively in planning and conducting professional activities in any areas such as education, economics, project administration, as well as the work in research institutions and development projects. In addition, the alumni network is aimed at establishing regional networks between the Alumni (also Alumni Associations) who are willing to conduct research or doctorate in Europe, namely Germany, France, Norway, and also scientific collaborations and projects.

From the perspective of the network the event will contribute to bridge the gap between the utilization of recent technology and the lack of human resources qualification in terms of technical and organizational skills in developing countries.

Activities

- Doctoral Working group "Educational Technology"
- Professional Working groups "TVET" and "SME promotion"
- Social Excursion: Batik- SME Business case, technopreneur experience and production of a handicraft by participants
- High level international key notes
- Best practice lectures
- Culture and nature excursions around the Yogyakarta World Heritage sites

YOGYAKARTA IN A GLANCE

Yogyakarta is a culture and student city which located in Java island. Yogyakarta is also a city with outstanding historical and cultural heritage. It is the only province that is still formally governed by a precolonial Sultan of Ngayogyakarta Hadiningrat. Furthermore, Yogyakarta is rich in natural beauty.
